(c) Line of Duty Disability

- (1) *In General* - Any condition or impairment of health of any and all police officers or firefighters caused by tuberculosis, hypertension, heart disease, or hardening of the arteries, resulting in total or partial disability or death, shall be presumed to be accidental and suffered in the line of duty unless the contrary be shown by competent evidence.
- (2) *Injury by Exposure* - Any condition or impairment of health caused directly or proximately by exposure, which exposure occurred in the active performance of duty at some definite time or place without willful negligence on the part of the police officer or firefighter, resulting in total or partial disability, shall be presumed to be accidental and suffered in the line of duty.
 - A. However, such police officer or firefighter shall have successfully passed a physical examination upon entering such service, which physical examination including electrocardiogram failed to reveal any evidence of such condition.
 - B. Such presumption shall not apply to benefits payable under or granted in a policy of life insurance or disability insurance.

(d) **Nonadmissible Causes of Disability** - A participant will not be entitled to receive any disability retirement income if, in the opinion of the retirement committee, the disability is a result of:

- (i) Injury or disease sustained by the participant while willfully and illegally participating in fights, riots, civil insurrections or while committing a felony;
- (ii) Injury or disease sustained by the participant while serving in any armed forces;
- (iii) Injury or disease sustained by the participant diagnosed or discovered subsequent to the date his employment has terminated;
- (iv) Injury or disease sustained by the participant while working for anyone other than the City, and arising out of such employment; or
- (v) Discretionary Conditional Review: Excessive and habitual use by the participant of drugs, intoxicants or narcotics.

(e) **Proof of Disability.**

- (1) **Certificate from Physical Examiners** - The retirement committee, before approving the payment of any disability retirement income may require satisfactory proof, in the form of a certificate from the Physical Examiners that the participant has become disabled as provided herein.
- (2) **Continuing Proof of Disability** - Every six months after commencement of disability retirement income, or more frequently, the retirement committee may similarly require proof of the continued disability of the participant.

(f) **Disability Retirement Income.**

- (1) **Monthly Income Payable Prior to Normal Retirement Date:**

A. **Formula** - The benefit payable prior to the normal retirement date of participant who retires from the service of the City under the provisions of this Section due to total and permanent disability is the monthly income equal to 60% of the participant's final monthly compensation at

the date of termination of his service due to disability.

- B. Any Police Officer or Firefighter who is granted a disability retirement benefit will receive a monthly benefit calculated under paragraph A., however, this benefit shall not be less than 42% of his final monthly compensation at the date of termination of service due to disability.

(2) Monthly Income Commencing on Normal Retirement Date.

- A. Cessation of Monthly Income - The monthly income in the amount described in section 6.03(f)(1), (Monthly Income Payable Prior to Normal Retirement Date), above, unless previously discontinued in accordance with section 6.03(g), (Payment of Disability Retirement Income), below, shall cease with the last such payment being due on the first day of the month immediately preceding the disabled participant's normal retirement date.
- B. Commencement of Monthly Disability Income Commencing on the disabled participant's normal retirement date, his monthly disability retirement income shall be in an amount computed as for normal retirement in accordance with section 6.01(b), (Normal Retirement Date) based upon his anticipated number of years of credited service at his normal retirement date (as defined below) and his projected rate of final monthly compensation at his normal retirement date (as defined below), but such monthly retirement income shall not exceed the monthly disability retirement income determined under section 6.03(f)(1).
- C. Anticipated Credited Service - The participant's anticipated number of years of credited service at his normal retirement date shall be equal to that number which he would have accrued at such date in accordance with section 3.04, (Credited Service), if his employment had not been terminated but had continued uninterrupted from the date of termination of his service due to disability to his normal retirement date.

- D. Projected Rate of Final Monthly Compensation The participant's projected rate of final monthly compensation at his normal retirement date shall be determined as of the participant's normal retirement date based on the assumption that the participant's last regular rate of monthly basic compensation prior to the date of termination of his service due to disability would have been continued without change to his normal retirement date.

(g) Payment of Disability Retirement Income.

- (1) Date of Commencement of Payment - The monthly retirement income to which a police officer or firefighter is entitled in the event of his disability retirement shall be payable on the first day of the first month after the retirement committee determines such entitlement.

A. Partial Month - However, the monthly retirement income shall be payable as of the date the retirement committee determines such entitlement, and any portion due for a partial month shall be paid together with the first payment.

- (2) Last Payment - The last payment will be as follows:

- (i) If the participant recovers from the disability prior to his normal retirement date, the last payment will be the payment due next preceding the date of such recovery.
- (ii) If the participant dies prior to his normal retirement date without recovering from his disability, the last payment will be the payment due next preceding the date of his death. However, such participant's designated beneficiary (or beneficiaries) will be entitled to a death benefit as provided in section 6.03(h) below.
- (iii) If the participant attains his normal retirement date while still disabled, the last payment will be the payment due next preceding the disabled participant's death. In the event the disabled participant dies before he has received retirement benefits for a period of 10 years after his normal retirement date, the same monthly benefit which he was entitled to receive

commencing on his normal retirement date will be paid for the remainder of such 10-year period to the beneficiary designated as provided in Section 7.02 "Beneficiaries".

(h) **Benefit Payable in the Event of Death of Disabled Participant Prior to his Normal Retirement Date.**

(1) **Amount of Death Benefit** - In the event that the death of a disabled participant occurs after he has been determined to be disabled by the retirement committee but prior to his normal retirement date (whether or not his disability retirement income payments have commenced), his beneficiary (or beneficiaries) will receive the monthly retirement income, payable for 10 years certain and life thereafter and beginning on the first day of the month coincident with or next following the date of the disabled participant's death, which can be provided, on an actuarially equivalent basis, by (A) or (B), whichever is greater, where:

A. is equal to the single sum value as of the date of the participant's death, of the deferred monthly retirement income commencing at normal retirement date which the disabled participant would have accrued to the date of his death if he had remained continuously in the service of the City from the date of termination of his service due to disability to the date of his death, and

B. is the smaller amount of

(i) an amount equal to 24 times his final monthly compensation immediately preceding the date of termination of his service due to disability, and

(ii) an amount equal to 100 times the participant's anticipated monthly retirement income commencing at his normal retirement date;

(2) **Lump Sum Benefit** - In lieu of payment of such benefit in the form of the monthly income described above, the single-sum value of such benefit may be paid on an actuarially equivalent basis to the participant's designated beneficiary (or beneficiaries) in such other manner or form as the participant may elect and the retirement committee may approve, or in the event no election is made by the participant prior to his

death, as the beneficiary (or beneficiaries) may elect and the retirement committee may approve.

- (3) *Amount of Deferred Monthly Retirement Income* - The amount of such deferred monthly retirement income commencing at normal retirement date which the disabled participant would have accrued to the date of his death shall be computed as for normal retirement under section 6.01(b), (Normal Retirement Date:) based upon the disabled participant's anticipated number of years of credited service at the date of his death (as defined below) and his projected rate of final monthly compensation at the date of his death (as defined below).
- (4) *Number of Years of Credited Service* - The participant's anticipated number of years of credited service at the date of his death shall be equal to that number which he would have accrued at such date in accordance with section 3.04, (Credited Service), hereof if his employment had not been terminated but had continued uninterrupted from the date of termination of his service due to disability to the date of his death.
- (5) *Projected Rate of Final Monthly Compensation* - The participant's projected rate of final monthly compensation at the date of his death shall be determined as of the date of the participant's death, based on the assumption that the participant's last regular rate of monthly basic compensation prior to the date of termination of his service due to disability would have continued without change to the date of his death.

(i) *Recovery from Disability.*

- (1) *General Provision* - If the retirement committee determines that the participant who is receiving disability retirement income is, at any time prior to his normal retirement date, no longer disabled, as provided herein, the retirement committee shall direct that the retirement income be discontinued.
- (2) *Early Retirement/Vested Deferred Retirement Income* - Any such participant who recovers from disability and whose retirement income is discontinued by the retirement committee and who, as of the date of termination of his service due to disability, had both attained the age of 45 years and completed 15 years of service shall, if he does not re-enter the

service of the City, be entitled to the early retirement income or the vested deferred retirement income as provided in sections 6.02 and 6.04(a) respectively. This amount will be based upon his final monthly compensation and his credited service as of the date of termination of his service due to disability and upon his attained age as of the date of his recovery from disability. But early retirement will be subject to the consent of the retirement committee, and the amount of the retirement income upon early retirement will be actuarially reduced to take into account the participant's younger age and the earlier commencement of retirement income payments as provided in section 6.02, (Early Retirement and Retirement Income).

- (j) Re-employment by the Employer - If the participant recovers from disability and re-enters the service of the City, his service will be deemed to have been continuous. But the period beginning with the first month for which he received a disability retirement income payment and ending with the date he re-enters the service of the City will not be considered as credited service for the purposes of the plan.

§ 6.04 BENEFITS OTHER THAN ON RETIREMENT

(a) Benefit on Termination of Service

- (1) *Deferred Payment of Benefits* - In the event of the termination of a participant's service prior to his normal retirement date, (for any reason other than his death), early retirement (as described in section 6.02) or disability retirement (as described in section 6.03) after he has completed ten (10) years of credited service (hereafter referred to as a "terminated participant"), he will be entitled to a monthly retirement income. That monthly income will be payable for 10 years certain and life thereafter, and will commence on his normal retirement date, if he shall then be living, in an amount equal to 3% (.0300) of his final monthly compensation multiplied by his years of credited service multiplied by his vested percentage as of the date of termination of service as shown in the schedule below.

- (2) **Immediate Monthly Payment of Benefits** - If a participant has at least 20 years of credited service on his date of termination of service, as described in this paragraph, he may elect to receive immediate monthly payments of his benefits in lieu of a deferred vested benefit commencing at his normal retirement date.
- (A) This immediate monthly benefit will equal the deferred vested benefit calculated above, multiplied by the actuarial reduction factor to take into account the participant's younger age at commencement of benefits.
- (B) This immediate benefit will be payable commencing as of the first day of the month coincident with or next following the date on which the retirement committee receives from the participant his election in writing and will be payable monthly thereafter for 10 years certain and life.
- (3) **Return of Contribution on Termination** - If the terminated participant described in this section has any vested percentage on his date of termination of service, he may elect to receive a return of his contributions plus interest at the rate of 3% compounded annually in lieu of a deferred vested benefit payable at his normal retirement date as described above.
- (4) **Terminated Employee's Death Prior to Commencement of Retirement Income** - In the event a terminated participant dies prior to the commencement of his retirement income at his normal retirement date (without having received, in accordance with section 6.07, the value of the benefit in Section 6.04(a)(1), (Deferred Payment of Benefits), above, without having elected and begun to receive his monthly benefits prior to his normal retirement date as described in section 6.04(a)(1) above, or without his having received a refund of his contributions with interest as described in section 6.04(a)(1) above), his beneficiary (or beneficiaries) will receive the monthly retirement income, payable for 10 years certain and life thereafter and beginning on the date of the participant's death, which can be provided by the single-sum value of the participant's accrued

deferred monthly retirement income as of the date of termination of the participant's service, accumulated at interest from the date of termination of the participant's service to the date of his death. :

(5) Re-Entry Into Service of City.

(A) If the participant's service with the City is terminated while he is entitled to the retirement income described in section 6.04(a)(1), (Deferred Payment of Benefits), above, and he subsequently re-enters the service of the City prior to electing and receiving his monthly benefits before his normal retirement date as described in section 6.04(a)(1) above, and provided he did not receive a refund of his contributions with interest, he will be entitled, upon such re-entry, to the credited service he had on the date of termination of his service in lieu of the benefits to which he was entitled on such date under section 6.04(a)(1). The monthly retirement income payable to such participant commencing at normal retirement date shall not be less than the amount to which he was entitled under section 6.04(a)(1) prior to his re-entry into the service of the City.

(B) If a participant who is receiving monthly payments prior to his normal retirement date due to the election described in section 6.04(a)(1), (Benefit on Termination of Service: Deferred Payment of Benefits), above, subsequently re-enters the service of the City, benefit payments will cease effective immediately upon re-entry and he will immediately begin to make employee contributions and accrue credited service. Upon his subsequent retirement or termination of service, benefit payments will again commence as indicated in this plan, except the value of those payments will be reduced by the value of the payments previously received. Except with respect to disability, retirement, any other participant will, on re-entry into the service of the City (unless he has been on leave of absence pursuant to the provisions of section 3.03), be treated as if he then first entered the service of the City.

- (C) If the participant's service with the City is terminated and he subsequently re-enters the service of the City, and he did not receive a return of his employee contributions, he will be entitled upon such re-entry to the credited service.

If the participant's service with the City is terminated and he subsequently re-enters the service of the City, and he did receive a return of his employee contributions, he will not be automatically entitled, upon such re-entry to the credited service, unless said participant purchases the actuarial value of the prior service years within sixty (60) days of re-entry.

- (6) Application of Options to Other Sections - The provisions of section 6.06 relating to optional forms of retirement income are applicable to the benefits provided under section 6.04(a)(1) or "Deferred Payment of Benefits".

- (7) Termination Prior to Completion of 10 Years Credited Service - Except as provided in section 6.01 with respect to normal retirement, section 6.03 with respect to disability retirement, and section 6.04 with respect to death, the participant whose service is terminated prior to the date on which he has completed ten (10) years of credited service shall be entitled only to the return of his contributions plus interest at the rate 3% compounded annually.

- (b) Benefit Payable in the Event of Death on or Prior to Normal Retirement Date While in Service.

- (1) Amount - If the service of a participant is terminated by reason of death on or prior to his normal retirement date, there shall be payable to the participant's designated beneficiary (or beneficiaries) the monthly retirement income, beginning on the first day of the month coincident with or next following the date of his death which can be provided by (i) or (ii), whichever is greater, where:

- (i) is the single sum value of his accrued deferred retirement income commencing at his normal retirement date which sum has accrued to the date of his death, where this single-sum value will be calculated in a manner

similar to the way the reserve is accumulated under a typical retirement income contract, and

- (ii) is (a) or (b), whichever is smaller where (a) is 24 times his rate of monthly compensation on the October 1st preceding the date of his death and (b) is 100 times the participant's anticipated monthly retirement income commencing at normal retirement date.

- (A) Computation of Accrued Deferred Monthly Retirement Income - The amount of such accrued deferred monthly retirement income in section 6.04(b)(1)(i), above, shall be computed as for normal retirement under section 6.01(c)(1), (Amount of Retirement Income: To Participant Who Retires on Normal Retirement Date), based upon the participant's number of years of credited service and final monthly compensation at the date of his death.
- (B) Computation of Anticipated Monthly Retirement Income - The amount of anticipated monthly retirement income commencing at normal retirement date in section 6.04(b)(1)(ii)(b), above, shall be computed as for normal retirement under section 6.01(c), based on his anticipated number of years of credited service at his normal retirement date and his projected final monthly compensation at normal retirement date.
- (C) Determination of Anticipated Number of Years of Credited Service - The participant's anticipated number of years of credited service at his normal retirement date shall be determined in accordance with section 3.04, (Credited Service), based on the assumption that his employment with the City would have continued uninterrupted from his date of death to his normal retirement date.
- (D) Determination of Projected Final Monthly Compensation - The participant's projected final monthly compensation at his normal retirement date shall be determined as of the participant's normal retirement date, based on the assumption that the participant's rate of monthly basic compensation as of his date of death would have

continued, without change, to his normal retirement date.

(2) **Term of Monthly Retirement Income Payments** - Except as provided in section 6.04(b)(3) below, the monthly retirement income payments under section 6.04(b) shall be payable for the life of the beneficiary (or beneficiaries) designated or selected under section 7.02 to receive such benefit. In the event of such beneficiary's death within a period of 10 years after the participant's death, the same monthly amount shall be payable for the remainder of such 10-year period in the manner and subject to the provisions of section 7.03, (Contingent Beneficiaries).

(3) **Lump Sum Payment** - In lieu of the benefits payable in section 6.04(b)(2) (Term of Monthly Retirement Income Payments) above, the single-sum value of such benefits may be paid to the participant's designated beneficiary (or beneficiaries) in such other manner and form as the participant may elect and the retirement committee may approve, or, in the event no election is made by the participant prior to his death, as the beneficiary (or beneficiaries) may elect and the retirement committee may approve.

(c) **Benefit Payable in Event of Death While in Service After Normal Retirement Date.**

(1) **Monthly Retirement Benefit** - If the service of a participant is terminated by reason of his death after his normal retirement date, there shall be payable to the participant's designated beneficiary (or beneficiaries) the monthly retirement income, determined actuarially, beginning on the first day of the month coincident with, or next following, the date of his death, which can be provided by the single sum value of the normal retirement income to which he was entitled on his date of death.

(2) **Monthly Retirement Income Payments** - Except as provided in section 6.04(c)(3), (Lump Sum Benefits), below, the monthly retirement income payments under section 6.04(c) shall be payable for the life of the beneficiary (or beneficiaries) designated or selected under Section 7.02, (Beneficiaries), to receive such benefit. In the event of such beneficiary's death within a period of 10 years after the participant's death, the same monthly amount shall be payable for the remainder of such 10-year period in the manner

and subject to the provisions of section 7.03, (Contingent Beneficiaries).

- (3) **Lump Sum Payment** - In lieu of the benefits payable in section 6.04(c)(2) (Monthly Retirement Income Payments) above, the single-sum value of such benefits may be paid to the participant's designated beneficiary (or beneficiaries) in such other manner and form as the participant may elect and the retirement committee may approve, or, in the event no election is made by the participant prior to his death, as the beneficiary (or beneficiaries) may elect and the retirement committee may approve.

§ 6.05 LIMITATIONS OF BENEFITS

- (a) **New Members** - The normal retirement benefit or pension payable to a retiree who becomes a member of the retirement plan and who has not previously participated in such plan on or after January 1, 1980 shall not exceed 100 percent of his average final compensation. However, nothing contained in this section shall apply to supplemental retirement benefits or to pension increases attributable to cost-of-living increases or adjustments. As used in this section, the term "average final compensation" means the average of the member's earnings over a period of time which the governmental entity has established by this ordinance.

No member of a retirement system or plan covered by this part who is not now a member of such plan shall be allowed to receive a retirement benefit or pension which is in part or in whole based upon any service with respect to which the member is already receiving or will receive in the future, a retirement benefit or pension from another retirement system or plan; provided that this restriction does not apply to social security benefits or federal benefits under chapter 67, Title 10, U.S. Code.

§ 6.06 OPTIONAL FORMS OF RETIREMENT INCOME

- (a) **Options** - In lieu of the amount and form of retirement income payable in the event of normal retirement, early retirement or termination of service as specified in sections 6.01, 6.02, and 6.04(a), a participant, or a terminated participant as defined in section 6.04(a), upon written request to the retirement committee may elect to receive a retirement income or benefit commencing on the date specified in sections 6.01, 6.02 or 6.04(a), whichever is applicable, of equivalent actuarial value payable in accordance with one of the following options:

Option 1: A retirement income of larger monthly amount, payable to the participant for his lifetime only.

Option 2: A retirement income of modified monthly amount, payable to the participant during the joint lifetime of the participant and a joint pensioner designated by him, and following the death of either of them, 2/3 of such monthly amount payable to the survivor for the lifetime of the survivor.

- (b) **Designation of Joint Pensioner, Beneficiary, or Beneficiaries** - The participant upon electing any option of this section will designate the joint pensioner or beneficiary (or beneficiaries) to receive the benefit, if any, payable under the plan in the event of his death and will have the power to change such designation from time to time, but any such change shall be deemed a new election. Such designation will name a joint pensioner or one or more primary beneficiaries where applicable.
- (c) **Changes of Joint Pensioner, Beneficiary or Beneficiaries** - If a participant has elected an option with a joint pensioner or beneficiary (or beneficiaries) and his retirement income benefits have commenced, he may thereafter change his designated joint pensioner or beneficiary (or beneficiaries). He may do so in the case where the designation to be changed is one involving a joint pensioner, if the joint pensioner last previously designated by him is alive when he files with the retirement committee his request for such change. The consent of a participant's joint pensioner or beneficiary (or beneficiaries) to any such change shall not be required.
- (d) **Change of Joint Pensioner, Actuarial Redetermination of Income** - The retirement committee may request such evidence of the good health of the joint pensioner who is being removed as it may require. The amount of retirement income payable to that participant upon the designation of a new joint pensioner shall be actuarially redetermined, taking into account the age and sex of the former joint pensioner, the new joint pensioner and the participant. Each such designation will be made in writing on a form prepared by the retirement committee.

- (e) **Benefits Where No Survivors** - In the event that no designated beneficiary survives the participant, such benefits as are payable in the event of the death of the participant subsequent to his retirement shall be paid as provided in section 7.02, (Beneficiaries).
- (f) **Limitations on Retirement Income Under Options Retirement** income payments will be made under the option elected in accordance with the provisions of this section and will be subject to the following limitations:
- (i) If a participant dies prior to his retirement under the plan, or if a terminated participant dies prior to the commencement of his payments at his normal retirement date, no benefit will be payable under the option to any person, but benefits will be payable as provided in Section 6.04, "Benefits Other Than on Retirement."
 - (ii) If the designated beneficiary (or beneficiaries) or joint pensioner dies before the participant's retirement under the plan or subsequent to a terminated participant's date of termination of service, but prior to his normal retirement date, the option elected will be cancelled automatically and a retirement income of the normal form and amount will be payable to the participant upon his retirement or to the terminated participant at his normal retirement date as if the election had not been made, unless a new election is made in accordance with the provisions of this section or unless a new beneficiary (or beneficiaries) or joint pensioner is designated by the participant prior to his retirement or by the terminated participant prior to his normal retirement date and within 90 days after the death of the prior beneficiary (or beneficiaries) or joint pensioner.
 - (iii) If both the participant and the beneficiary (or beneficiaries) designated by him die after the date that the participant's retirement income commences under the plan but before the full payment has been effected under any option providing for payments for a period certain and life thereafter, the retirement committee may, in its discretion, direct that the commuted value of the remaining payments be paid in a lump sum and in accordance with Section 7.03, "Contingent Beneficiaries".

§ 6.07 LUMP SUM PAYMENT OF SMALL RETIREMENT INCOME

Notwithstanding any provision of the plan to the contrary, if the monthly retirement income payable to any person entitled to any benefit hereunder is less than \$30 or if the single-sum value of the accrued retirement income is less than \$3,500 as of the date of retirement or termination of service, whichever is applicable, the retirement committee may, in the exercise of its discretion, specify that the actuarial equivalent of such retirement income be paid in a lump sum or in monthly installments for a period certain of not more than 60 months.

§ 6.08 TEMPORARY LIMITATIONS ON BENEFITS REQUIRED BY THE INTERNAL REVENUE SERVICE

The term "employee" as used in this Section 6.08 shall include all employees who are participants in the plan on the applicable effective date as hereinafter described and all employees who may later become participants in the plan.

Notwithstanding any provision of any other section of the plan to the contrary, the retirement income or retirement benefit in any form attributable to the City's contributions for any participant within the applicable group of the 25 highest-paid employees, as hereinafter described, shall not exceed an amount which is equal in value to (or which is actuarially equivalent to) the amount specified below with respect to the period for which the limitations described herein shall be applicable.

- A. With respect to any employee who is in the group of the 25 highest-paid employees of the City, determined as of July 1, 1957, who is a participant under the plan and whose monthly retirement income under the plan will exceed \$125, and who is not in the group of the 25 highest-paid employees determined as of October 1, 1965 (to whom the provisions of Section 6.08(B) below shall be applicable), the benefits in any form attributable to City contributions, which any participant to whom this Section 6.08 (A) is applicable may receive prior to July 1, 1967, shall not exceed an amount which is equal in value (or which is actuarially equivalent to) the larger of the following amounts:

- (1) \$20,000 and

- (2) An amount computed by multiplying the number of years elapsed since July 1, 1957, for which the full current costs have been met, by the smaller of the following amounts:

(a) \$10,000; and

(b) An amount equal to 20% of the participant's average regular annual compensation received from the City for the five years immediately preceding the date of such determination, or for a participant whose service has terminated, who has retired prior to his normal retirement date or who has attained his normal retirement age whether or not he has retired under the plan, the date of termination of service, the date of retirement or the normal retirement date, respectively.

Provided, however, if the full current costs have not been met as of July 1, 1967, the above restrictions will continue to apply until the full current costs have been funded for the first time.

(B) With respect to any employee who is in the group of the 25 highest-paid employees of the City, determined as of October 1, 1965, and whose monthly retirement income under the plan will exceed \$125, the benefits in any form attributable to City contributions which any participant to whom this Section 6.08(B) is applicable may receive prior to October 1, 1975 shall not exceed an amount which is equal in value (or which is actuarially equivalent to) the largest of the following amounts:

(1) The amount attributable to City contributions which would have been applied to provide the benefits for such participant if the plan, as in effect on September 30, 1965, had been continued without change;

(2) \$20,000; and

(3) The sum of:

(a) The amount attributable to City contributions which would have been applied to provide benefits accrued to the participant under the plan on September 30, 1965; and

(b) An amount computed by multiplying the number of years elapsed since October 1, 1965 for which the full current costs of the plan have been met by the smaller of the following amounts:

(i) \$10,000; and

(ii) An amount equal to 20% of the participant's average regular annual compensation received from the City for the five years immediately preceding the date of such determination, or for a participant whose service has terminated, who has retired prior to his normal retirement date or who has attained his normal retirement age whether or not he has retired under the plan, the date of termination of service, the date of retirement or the normal retirement date, respectively.

Provided, however, if the full current costs have not been met as of October 1, 1975, the above limitations will continue to apply until the full current costs have been funded for the first time.

The foregoing conditions will not restrict the payment of the full benefits to a beneficiary after the death of a participant whose benefits are subject to the provisions of this Section 6.08 if, at the time of such death, the plan is in full effect and the full current costs thereof have been met.

The provisions of this Section 6.08 will not apply to the retirement income payable in the normal form, or under Option 1, Option 2, or any other optional form which does not provide a larger monthly income to any participant retiring or receiving benefits during any period in which the plan is in full effect and the full current costs have been met.

The limitations will not apply to the payment of any survivorship income with respect to any deceased participant or retired participant who dies prior to the termination of the plan and while the full current costs thereof have been met.

In the event of the termination of the plan prior to the end of the 10-year period that next follows the effective date of the plan, that portion of the assets of the trust fund arising from contributions made by the City with respect to those participants to whom the provisions of this Section 6.08

are applicable which is in excess of the foregoing limitations will be apportioned to the other participants including retired participants, in accordance with the provisions contained in Section 8.06 hereof.

§ 6.09 FORFEITURE OF BENEFITS

- (a) **In General** - Any member who has been found guilty by a verdict of a jury or by the court trying the case without a jury, of committing, aiding, or abetting any embezzlement or theft from his employer, bribery in connection with the employment, or other felony specified in Chapter 838, Florida Statutes, committed prior to retirement, or who has entered a plea of guilty or of nolo contendere to such crime, or any member whose employment is terminated by reason of his admitted commitment, aiding, or abetting of an embezzlement or theft from his employer, bribery, or other felony specified in Chapter 838, Florida Statutes, shall forfeit all rights and benefits under this plan, except for the return of his accumulated contributions as of the date of termination.
