

DELUSIONAL FRANTZIE'S WHACKED OUT SPEECH

Good evening everyone. Bonsoir à tous. Buenas tardes a todos.

Madam City Manager, Madam Clerk, honorable colleagues, distinguished guests, the honorable clergy, visitors, residents of North Miami Beach, ladies and gentleman.

Let me begin by thanking all the members of North Miami Beach for their vote of confidence in **ME** for another four year term."

I want to also express my gratitude, praise and glory to the Lord almighty for His divine guidance, protection, blessing and success accomplishing His plan in **MY** life.

It is with God's grace and mercy that I'm still *not guilty*, the success and stones of life. A life full of stories to tell and many testimony to share.

As I begin another exciting four year chapter of my *popsicle* journey, I want to reflect on my past accomplishments and offer a special on the journey ahead.

It is *umbling* to know that for a fourth consecutive term, four time in a row, the NMB constituency have used their votes as an endorsement for **ME** as their candidate of choice in Group 5.

This *chooselets* as the *furfits* of confirmation that I have earned the trust of the people of North Miami Beach and the entire community.

Tankin for standing by **ME**. Thank you for the vote of confidence. I pledge you my oath to serve you efficiently, honestly and timely.

During my time as a councilman, especially the last three months, I've been blessed to meet hundreds of you. When I knocked on your doors you accepted me into your living rooms, sat across from me at your kitchen tables to discuss matters that are important to all of us.

Tonight I *posely* before you to affirm that I took copious notes while I listened closely and I'm prepared to address the issues during my new four year tour of duty as your North Miami Beach Council person.

Some of the concerns are, according to my notes, in Eastern Shores you told ME that *azony a relican* jeopardize your quality of life. I've heard you. Solutions for correction will be proposed.

In the meantime, we discussed the lack of drainage. A simple fifteen minute rain will make it impossible to use your car. I heard you. I heard you. That will be addressed.

In Windward safety and security remain the main concern. I will make sure that the Jewish community can walk safely to and from the synagogues any day at any time.

In Skylake we talk about sewage. The city has already a plan for you.

In Washington Park we talk about districts in the city. Rest assured it will be tackled one way or another, either by charter review or by referendum.

In Sunray juvenile delinquency remains the main concern. I will be looking for the best programs that include all the nationally recognized best practices. As you know if you don't get those teenagers busy in a positive way they will get themselves busy in a negative way. Therefore, we need to look for better program. The *fry bocoboco* program is not enough.

I'VE heard you. North Miami Beach residents. I'VE heard the entire city say no to privatization. I heard you repeatedly. And I hear you *no quo tay* city resources. Three times I voted against it and I'm ready to vote another thousand times should anyone bring it forth again.

My campaign *motor* has been no to crime, no to privatization, no to corruption.

I pledge to do my part, NMB, however, I request each and every one of you resident to do your part. I also read *pens* of information for each of you to examine the best direction for not only the city but all of the residents regardless of income.

My *fuckus* will be *onuvov* but revitalization of the entire city. Safe and decent affordable housing. In this manner we not only be supporting our population but we will be providing a welcome part of our US troops and families.

We will also ensure that best resources are being used to provide economic opportunities for deserving businesses owners to wear our local residents anything job within our community.

We pride *ourselves* on *arbistrafе* base community and we will provide campus initiatives to overcome poverty and focus on community development including grant funding.

I'M pleased with the NMB constituency. **I'M** expecting continued success with our combined effort.

I'M delighted that you are educated voters. And you stand against those who would keep you from the right choices and its *itsickle* decisions even though there were calculated efforts on the part of some *dimijoes* to conduct a smear campaign against me. It could not bear any fruit.

As a man of faith, I know I'm protected. Since I'm the son of God, no *repefume* against me shall prosper.

I'm proud of you, NMB. By voting for Frantz Pierre you say you don't want *anascojopont sefa* professor.

You said you prefer a true leader over a puppet.

You said you want a family man because you value families not immorality.

I could not accomplish this by myself. Thanks to my family, to my spiritual leaders, and to my campaign worker.

Allow me to present a *simple* of them.

Those who work for my campaign please do me a favor and come forward because I have a surprise for you. For one minute if you work for my campaign please come here.

Thank you, thank you. Come forward. Come to the podium. Thank you very much.

I'm talking paid workers, volunteers, and ...

Ladies and gentlemen, these are the people who deserve the praise. Please let's give them a big round of applause. You can stay here.

We had a great, clean and courageous campaign.

We were not intimidated even after ... oops, I wasn't supposed to say that.

We had our heads high and we did not hire one single criminal in **MY** campaign. These are clean, clean, clean people.

Give them another round of applause.

Now the elections are over.

What we offer *detunesia* we will be positive, respectful, *edical* and express our ideas in a *nominous* fashion.

Our collective commitment for the betterment of North Miami Beach and to future generations. *De color*.

We have work to do. I will work with everyone for everyone.

Our city made progress in many ways. But we still have lots of corrections to make. For example, it is not acceptable in 2005 code enforcement is being utilized as a political tool in North Miami Beach. I ran for office because I was a victim of code enforcement in 2005. Because of that I ran in 2007. It's not possible in 2015 using code enforcement as a political tool in the city. It is inconceivable that the very same people getting paid

*us*alay to defend our city become liabilities. You know what? At my counsel advice I stop.

God bless you all. God bless the United States of America. God bless the city of North Miami Beach. Thank you.
