Subject: Public Records Request 478 - 911 call and report

Good morning,

My name is Rafael and I represent the Office of the City Clerk. The City Clerk's office acts as a hub for the public records process. I have manually submitted your request through our online request system which is found at the link below. The reference number for your request is 478. We typically accept and forward public record requests to the department which holds the records. Once the records have been gathered, they are sent to the City Clerk's office in which case I will notify you.

Thank you,
