Councilman Galvin,

I believe Mr. Garrett is seeking the 9-1-1 audio recordings. The City of North Miami Police Department does not receive 9-1-1 calls therefore we do not have the audio recordings. He would need to get those recordings from the Miami-Dade County.

Through our process we have provided Mr. Garrett the information and audio recordings for the non-emergency calls he made to North Miami Police Department. We have provided Mr. Garrett with the contact information to obtain said 9-1-1 audio recordings from the County.

We consider this a closed matter on the City's end.

Thank you,
