Miami, Florida 33130

To Whom It May Concern:

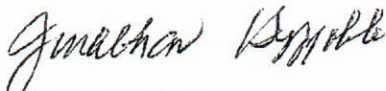

It is with great fear for my life and my family that I writing to you again. Today, November 29, 2015 Mr. Frantz Pierre abruptly took my picture around 11:30 AM in presence of another woman who heard what he said to me when I asked him why you take my picture. "He answered you will know later on" When I asked the lady what did she hear and see? She answered" yes, I saw and heard him, but I don't hear and don't see which implies her own fear for the council man brutal reputation.

In addition, it was reported to us by a credible source the same day earlier in the morning that both of us Harold Calixte and I are the two most influential men at the church they must get rid off before he could come back to pastor the church after he has willfully resign on multiple corruption allegations. Frantz as his close friend of Rev. Frantz David Eugene and his protégé is the ferocious advocate that he has been used to harass and intimidate us.

Thus, I would like again to officially report to you that Mr. Pierre is a real threat to me, my family and Mr. Harold Calixte and of course to the general public because of our decision to file these complaints against him. His campaign of intimidation and his continuous abuse of power can only be stopped by you active involvement in extinguishing such ego power that put all of us in harm ways.

Please come to our rescue before it is too late!

Sincerely yours,

Jonathan Hyppolite
