

Karter Strand is just 2½ years old. On June 30, 2016 he was diagnosed with Stage 4 Neuroblastoma Cancer. Karter needs at least 14 month of treatment, including 18 weeks of chemotherapy, constant blood transfusions, radiation, bone marrow stem cell transplant, antibody therapies and surgery to remove the tumor. Karter was given a 60% chance to beat cancer. With everyone's support we know he will. A charity softball tournament will be held in his name.
