

Anti-semitism alert 🚨 in Sunny Isles Beach. We know that our current Mayor, commissioners, city managers and police are actively monitoring the situation in our city due to antisemitic incidences across the county . Please read the following information. Here in The us USA we must stop antisemitism in its tracks on the local level, as well as those who support them before they get to power. It does not matter if you are Jewish or not. You can be his next victim, and not just in Ponciana Island . #antisemitism #florida #miamidade #candidate #jews

Dear Friend and Neighbor,  
It pains me to write this in 2022, and in Sunny Isles Beach of all places. But it's vitally important voters know that city commission candidate Greg Capra and his wife are shamelessly and openly anti-Semitic.

Many of you probably know about this couple's notorious rage-infested reign of terror as president of the condo association where I live. It's well documented in court records and dozens of police reports written by the unfortunate officers who had to respond to their out-of-control episodes. Their incendiary behavior also was well publicized during Greg Capra's previous two failed runs for city commission.

Now it's finally time for the whole ugly truth to come out.

For years the Capras have tortured and tormented my family with their vile anti-Semitic slurs during their many uncontrolled tirades. This includes my husband, and even our pre-teen daughter.

Sadly, we are not the only Jews subjected to their blatantly anti-Semitic remarks. They also have targeted Jewish neighbors, the wife of a local Rabbi, and another himself!

This is despicable and must not be tolerated anywhere, and certainly not in our own City Hall.

Thankfully, we have Fabiola Stuyvesant as a highly-qualified, dedicated and thoughtful alternative to Greg Capra in the Feb. 8 special runoff election for the City Commission, seat 3.

As you know, I appointed Fabiola (and Johana Rabinovich) to fill one of two vacancies on the city commission. I did so because Fabiola brings energy and a fresh perspective. She's raising her family here, and is deeply entwined in the fabric of our city's civic life. Most important, she fully understands that we must make big, bold decisions to protect and enhance our city's quality of life.

I respectfully ask you to send a clear and unambiguous message on Feb. 8 that our city doesn't tolerate Anti-Semitism.

Let's not just defeat Greg Capra resoundly a third time. Let's elect Fabiola resoundly so she can help us tackle the many challenges confronting us, and make our great city even better.

Respectfully,

Mayor Dana Goldman
