Subject: Re: Formal Request for Clarification – February 27 Police Department Disclosure (Response Requested Within 10 Business Days)

Dear Ms. Joseph Noel,

Thank you for your correspondence regarding your February 27 visit to the North Miami Beach Police Department.

The Police Department is responsible for receiving and addressing reports from residents, including matters involving alleged harassment or safety concerns. From time to time, the Police Department may provide the City Manager's Office with general notifications regarding issues that may have operational, public safety, or community interest implications. Indeed, police departments routinely notify the City Manager of matters involving elected officials, political candidates, and potentially politically sensitive incidents. This is standard executive briefing practice.

Such notifications are for situational awareness only and do not involve the City Manager directing or intervening in the handling of individual police matters. For that reason, any concerns you raised during your visit to the Police Department would appropriately be handled through the Department's established law enforcement procedures. The City Manager's Office does not independently investigate or follow up on individual police contacts made by residents.

With respect to your anticipated public records request, the City of North Miami Beach routinely follows our retention policies in accord with Florida law. Should you submit a public record request again as you have previously, the City will process the same in accordance with Chapter 119, Florida Statutes, through the Office of the City Clerk.

Sincerely,

Darvin Williams, JD, MBA, MPH

City Manager

City of North Miami Beach

Office of the City Manager
