

Good evening everyone, it's a pleasure to be here with us this morning/afternoon. The most important thing at this moment is a moment of unity for our community. Because we see not only in the history of NMB, in the history of Haiti, unity is the thing that is on the flag, but also in the experience of unity and strength, and we see this morning that is what we see today. Let's applaud the city of NMB.

And we know that this year the city of NMB will celebrate its 100th anniversary and Dukens, we want to say welcome again and congratulations not only to you but to the entire team.

And we have a program that we will announce, the city of NMB is currently talking about starting a free soccer program for children in NMB. This means that we are partnering with Little Haiti FC where we have children from NMB who can learn to play football for free.

Let's clap for that. Alright Little Haiti FC (crowd cheering)

As we see that Duckens is here, there are many children in the Haitian community who would like this chance to play this beautiful sport. So continue to connect with us. Not only that, I would like to ask you for something very special. We see that the Haitian electorate needs the support of the community. I say this in Creole so that we can understand. The community needs it, we need a serious back up at this time. Especially in the coming time, in the time of this upcoming election in 2026.

IF HAITIANS DO NOT STAND TOGETHER, WE WILL DEFINITELY LOSE THE CITY. I ask you with all sincerity to stand TOGETHER behind your leaders and all your FUTURE leaders coming after US so that the city can stand up and everyone in the community can receive what they deserve.

Thank you.
